THE ANNUAL REPORT ON DENTAL AUXILIARY EDUCATION 1983-84 is a summary of the information obtained from the *1983 ANNUAL SURVEY OF DENTAL AUXILIARY EDUCATION PROGRAMS*. Data were provided by the administrators of dental assisting, dental hygiene and dental laboratory technology programs accredited by the Commission on Dental Accreditation as of October, 1983. At that time, 281 dental assisting, 201 dental hygiene and 58 dental laboratory technology programs were accredited and in operation.

TABLE 1 indicates the first-year enrollment in the three types of programs from 1973 to 1983. As indicated in Table 1, the first-year enrollment in dental assisting programs increased by 7.6% from the 1982 enrollment, dental hygiene first-year enrollment declined by 1.7% from the enrollment in 1982 and dental laboratory technology first-year enrollment also declined by 2.3% from last year's enrollment. The increase in dental assisting enrollment is due more to a different method used to count military personnel.

* The increase in dental assisting first-year enrollment is due to including all military personnel trained within a year at Sheppard Air Force Base.

** First-year enrollment in dental hygiene programs may include students as first year or third year in Table 6, depending upon the amount of prerequisite education required by the program.

FIGURE 1 graphically illustrates the first-year enrollment in each of the dental auxiliary programs from 1966 through 1983.

FIGURE 1: First-Year Enrollment in Dental Auxiliary Programs 1966-1983

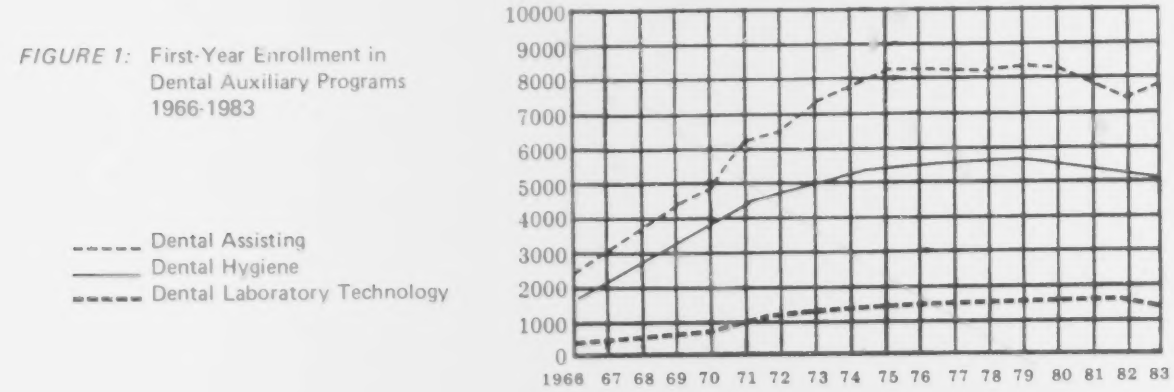

TABLE 2 shows the total enrollment in the auxiliary programs from 1973 through 1983. The total enrollment increased by 7.0% from that in 1982 for dental assisting while total enrollment decreased by 4.2% and 0.6% for dental hygiene and dental laboratory technology programs, respectively.

TABLE 3 displays the number of graduates from dental auxiliary programs from 1973 through 1983. The number of dental assisting graduates increased 3.9% from that of 1982, the number of dental hygiene graduates decreased by 5.3% and in dental laboratory technology programs, the number of graduates decreased by 10.2% from last year's number. The decrease in the number of dental laboratory technology graduates was due mostly to a decrease in graduates from a military based program.

TABLES 4 through *12* present the following information for each type of dental auxiliary program: a list of programs, admission policies and data, and enrollment and graduate information.

DENTAL HYGIENE EDUCATION PROGRAMS

TABLE 4 includes the names and addresses of dental hygiene education programs and the name of the program administrator.

TABLE 5 presents admission policies and descriptive data on each accredited dental hygiene program. Information includes the award granted upon completion of the accredited curriculum which prepared the student for licensure, the type and number of terms of instruction, the minimum educational background needed to enter the program and the total cost of the program to the student. The number of terms and costs do not include prerequisite education.

TABLE 6 identifies the first-year enrollment capacity, enrollment in each year of the program, and the number of students who completed the accredited curriculum in 1983. The graduates are tabulated by the type of award granted upon completion of the accredited curriculum which prepared the student for licensure.

DENTAL ASSISTING EDUCATION PROGRAMS

TABLE 7 includes the names and addresses of dental assisting education programs and the name of the program administrator.

TABLE 8 presents admission policies and descriptive data on each accredited dental assisting program. Information includes the award granted upon completion of the accredited curriculum which prepared the student for employment, the type and number of terms of instruction, the minimum educational background needed for admission to the program and the total cost of the program to the student. The years devoted solely to general education courses are not included as part of the dental assisting curriculum.

TABLE 9 identifies first-year enrollment capacity, enrollment in each year of the program and the number of students who completed the employment preparation curriculum in 1983. These graduates are tabulated by the type of award that is granted upon completion of this employment preparation program.

DENTAL LABORATORY TECHNOLOGY EDUCATION PROGRAMS

TABLE 10 includes the names and addresses of dental laboratory technology education programs and the name of the program administrator.

TABLE 11 presents admission policies and descriptive data on each accredited dental laboratory technology program. Information includes the award granted upon completion of the accredited curriculum in 1983, the type and number of terms of instruction, prerequisite education for admission to the program and the total cost of the program to the student.

TABLE 12 identifies the first-year enrollment capacity, enrollment in each year of the program and the number of students who completed the employment-preparation curriculum in 1983. These graduates are tabulated by the type of award that is granted upon completion of this employment preparation curriculum.
